Stjepan Boltižar Memorial 2024
Example of team scoring

Example of team scoring based on 16 competitors, 12 of which are in one of the three teams (5 competitors in the **Red team**, 4 competitors in the **Green team** and 3 competitors in the **Blue team**). Each member of the team brings points to the team according to his/her individual ranking. The team score is based on the top three individuals from the team (underlined in the example table). In case there is only one competitor in the group, he/she brings one point plus credit (*) which gives advantage in case of tied team results.
